

# ScopeAI — Financial & Revenue Statement

Official Evidence for XPRIZE Build with Gemini (Small Business Services)

100% VERIFIED LEDGER

ARMS-LENGTH CUSTOMER  
REVENUE

\$0.00 USD

RELATED-PARTY REVENUE

\$0.00 USD

TOTAL REALIZED EXPENSES

\$2.70 USD

## Stripe Gateway & Transaction Ledger

All financial operations are routed through Stripe Checkout and Google Cloud. In accordance with XPRIZE rules regarding arms-length customer validation and zero-tolerance for mock numbers:

| Date                                   | Type             | Description                                        | Gross (USD) | Fee (USD)               | Net (USD) |
|----------------------------------------|------------------|----------------------------------------------------|-------------|-------------------------|-----------|
| 2026-08-10                             | Founder Test     | Payment Webhook Verification (Refunded same-day)   | \$49.00     | \$1.74 (Non-refundable) | -\$1.74   |
| 2026-08-11 to 2026-08-17               | Production Pilot | Open Evaluation Sandbox (/demo) + Launch Promotion | \$0.00      | \$0.00                  | \$0.00    |
| TOTAL RECORDED REVENUE & GATEWAY COSTS |                  |                                                    | \$0.00      | \$1.74                  | -\$1.74   |

### Founder Attestation on Revenue Authenticity:

ScopeAI is live in production with real Stripe checkout integration. During the hackathon build window, zero arm's-length third-party revenue was collected. No artificial revenue, related-party transfers, or simulated sales were conducted.
